## **\*\*About Vimeo\*\***

Vimeo is a popular video platform where users can access thousands of HD videos. In the app, users can not only discover videos from other users, but also upload their own videos.

With the app of the popular video platform Vimeo you have access to thousands of videos also on the go. A special aspect of the app is that all videos are displayed both in HD quality and ad-free. You can not only discover videos from other users, but you can also upload your own videos with just a few clicks. With thousands of videos from a variety of categories, such as animation, documentary, and comedy, you'll always find new videos and users you like. If you follow other Vimeo users, new videos from the users appear in your feed automatically.

## **\*\*Vimeo - Features:\*\***

- Ad-free HD videos: On Vimeo you find thousands of videos from a variety of categories. If you watch videos, you will always benefit from excellent HD quality as well as an ad-free playback of the videos. If you're interested in a video, but you do not have time to watch it at the moment, you can easily put the video on your list and save it for later. You also have the possibility to save individual videos in the app, so you can watch them even without an Internet connection.
- Upload your own videos: You can not only watch videos from other users, but also upload your own videos. To do this you simply have to select a video from your gallery and with just a few clicks, it will be uploaded to your profile. You can share your videos with the large international Vimeo community as well as privately with just a few people, depending on the range your video should have.
- Discover new videos and users: If you want to discover new videos or users, you can use the special explorer icon in the app. Here recommendations of videos and Vimeo users that you might like are given to you. If you like a user or a specific category of videos, you can follow them. In the future, you'll be notified of new videos from the user or category in your feed. You'll also have access to the editors' daily recommendations, which keep track of current video trends and exceptional Vimeo users.

**Conclusion:** The Vimeo app convinces above all by a large selection of videos, which are played back both in HD quality and ad-free. Since the Vimeo community is huge, you'll discover new extraordinary videos and users every day.
